

Earth Day Mobile!

Hey Kids! Make an Earth Day mobile to hang around the house and make every day Earth Day!

1. Cut out the shapes below,
2. Use a hole punch to punch holes in the paper in the little circles.
3. Draw and color things you can do to help the earth in the boxes (examples: recycle cans, reuse paper by drawing on the back, or plant a tree)
4. Tie some string in the holes. Enjoy!

Bonus: Add some recycled items to your mobile too!
